FOR AIRPLAY & MUSIC-DIRECTOR CONSIDERATION

Still Believe in Me

Country storytelling about belief, resilience and staying power

A reflective, story-led country track for listeners who still believe people can come through when it matters most.

THE SONG

“Still Believe in Me” is a melodic, emotionally direct country release built around trust, perseverance and the need to be seen beyond past mistakes. Its contemporary production and clear narrative place it naturally between modern country, Red Dirt and Americana programming. The performance favors sincerity over flash, giving the lyric room to connect with listeners who value memorable stories and an authentic emotional center.

WHY IT FITS COUNTRY RADIO

- Story-first: an accessible theme of belief and second chances.
- Format-flexible: suitable for Country, Red Dirt, Americana and independent-music programs.
- Listener-centered: a warm, reflective track with a clear emotional hook.

ABOUT LUMIBEATS

LumiBeats is an independent music project led by songwriter, composer and vocalist James Highgate. The project pairs story-first writing with polished contemporary production, moving across country, pop and electronic influences while keeping melody and emotional clarity at the center. “Still Believe in Me” presents the country-facing side of that work: thoughtful, direct and built to connect through the song itself.
